EXPERIENCES

CodeClause — Web Developer Intern

Remote

Mar, 2024 - Apr, 2024

PROJECTS

Silent Survey | *Next JS, MongoDB, TypeScript, Zod, NextAuth*

[link](#)

- Robust Tech Stack: Built with Next.js and MongoDB for seamless performance.
- Type Safety: Utilizes TypeScript to ensure error prevention and maintain code quality.
- Secure Authentication: Integrates NextAuth for reliable authentication and authorization.
- Customizable UI: Leverages ShadCN for a flexible and user-friendly interface.

AI Trip Planner | *React, Firebase, Gemini API*

[link](#)

- Advanced Tech Stack: Built with React, AI Integration, and Firebase for robust performance.
- API Integrations: Incorporates Gemini and Unsplash APIs for dynamic trip generation and image sourcing.
- Customizable Design: Utilizes ShadCN for a beautiful, user-friendly interface.
- Effortless Trip Management: Save and manage trips with ease through an interactive dashboard.

AI Summarizer | *React, Redux, Tailwind CSS*

[link](#)

- Tech Stack: Developed with React, Redux, and Tailwind CSS for a seamless user experience.
- AI-Powered Summaries: Utilizes cutting-edge AI to analyze and distill news content.
- Efficient Design: Tailwind CSS ensures a sleek, responsive interface for optimal usability.
- Enhanced Productivity: Save time with concise and accurate summaries of your news feed.

HiLink Travel App UI | *Next JS, TypeScript, Tailwind CSS*

[link](#)

- Tech Stack: Built with Next.js, TypeScript, and Tailwind CSS for a robust and responsive design.
- Seamless Travel Planning: Provides accurate route information, distance details, and emergency assistance for a safe and enjoyable journey.
- User-Friendly Interface: Tailwind CSS ensures a sleek, modern design for effortless navigation and planning.

Recipe Finder - Cook Mom | *React, Tailwind CSS*

[link](#)

- Tech Stack: Built with React, API integration, and Tailwind CSS for a responsive design.
- Recipe Discovery: Easily find diverse recipes and add your favorites for future reference.
- User-Friendly Interface: Tailwind CSS provides a clean, intuitive design for a seamless user experience.

Sushi Delight | *HTML, CSS, JavaScript*

[link](#)

- Tech Stack: Built with HTML, CSS, and JavaScript.
- Elegant Design: Features beautiful visuals and smooth animations for an immersive experience.
- UI-Only: This project focuses on design and layout, with no backend functionality.

TECHNICAL SKILLS

Language: JavaScript

Frameworks: Next JS

Libraries: React JS , Redux, Tailwind CSS

Dev Tools: VS Code, Postman, Git, Github

Database: Mongo DB
