EDUCATION

Maharshi Dayanand University   Delhi NCR
BCA   *2022-2025*

EXPERIENCES

CodeClause — Web Developer Intern   Mar, 2024 - Apr, 2024
Remote

- Developed a responsive landing page using HTML and CSS.
- Built a React application with Exercise API integration.

PROJECTS

Silent Survey | *Next JS, MongoDB, TypeScript, Zod, NextAuth*   link

- Type Safety: Utilizes TypeScript to ensure error prevention and maintain code quality.
- Secure Authentication: Integrates NextAuth for reliable authentication and authorization
- Customizable UI: Leverages ShadCN for a flexible and user-friendly interface

AI Trip Planner | *React, Firebase, Gemini API*   link

- API Integrations: Incorporates Gemini and Unsplash APIs for dynamic trip generation and image sourcing
- Customizable Design: Utilizes ShadCN for a beautiful, user-friendly interface.
- Effortless Trip Management: Save and manage trips with ease through an interactive dashboard.

AI Summarizer | *React, Redux, Tailwind CSS*   link

- AI-Powered Summaries: Utilizes cutting-edge AI to analyze and distill news content
- Efficient Design: Tailwind CSS ensures a sleek, responsive interface for optimal usability.
- Enhanced Productivity: Save time with concise and accurate summaries of your news feed

HiLink Travel App UI | *Next JS, TypeScript, Tailwind CSS*   link

- Seamless Travel Planning: Provides accurate route information, distance details, and emergency assistance for a safe and enjoyable journey.
- User-Friendly Interface: Tailwind CSS ensures a sleek, modern design for effortless navigation and planning.

Recipe Finder - Cook Mom | *React, Tailwind CSS*   link

- Recipe Discovery: Easily find diverse recipes and add your favorites for future reference.
- User-Friendly Interface: Tailwind CSS provides a clean, intuitive design for a seamless user experience.

Sushi Delight | *HTML, CSS, JavaScript*   link

- Elegant Design: Features beautiful visuals and smooth animations for an immersive experience.
- UI-Only: This project focuses on design and layout, with no backend functionality.

TECHNICAL SKILLS

Language: JavaScript
Framework: Next JS
Libraries: React JS , Redux, Tailwind CSS
Dev Tools: VS Code, Postman, Git, Github
Database: MongoDB
